2027 CORPORATE TRAINING CALENDAR

Capability-Driven Corporate Learning and Workforce Development Programmes

A comprehensive 2027 corporate training schedule organised around ten core capability tracks.

growth@dataleum.com | www.dataleum.com

About Dataleum

Dataleum is a digital transformation ecosystem that enables individuals and organisations globally to build, deploy, and scale capabilities across data, AI, and operational excellence.

Through structured learning programmes, expert-led instruction and hands-on projects, Dataleum equips individuals and organisations with practical, industry-relevant knowledge and skills to strengthen workforce capabilities and improve business performance.

This calendar is structured around core functional and technical capability tracks designed to strengthen workforce productivity, streamline business operations, and accelerate digital transformation.

10 Capability tracks

65 Training programmes

Training Schedule & Corporate Enquiries

Published schedule

The training programmes in this calendar are available according to the published schedule. Organisations may also request any listed programme for delivery on alternative dates, mutually agreed and confirmed in consultation with Dataleum.

Tailored programmes

We also welcome requests for tailored training programmes designed around specific organisational needs, workforce priorities and business objectives.

For programme details, tailored training requests, scheduling arrangements and further enquiries, contact **growth@dataleum.com**

Corporate Training Delivery Options

Dataleum delivers programmes across four flexible formats to support organisational schedules, branch distribution, and learning objectives.

1

Physical Training

In-person, instructor-led workshops hosted at Dataleum's learning centres.

2

Virtual Instructor-Led Training

Live online cohorts featuring interactive software labs, breakout exercises, and real-time facilitator guidance.

3

Hybrid Training

Combines live virtual sessions with scheduled in-person workshops and capstone project clinics.

4

Tailored In-House Programmes

Closed, single-organisation cohorts hosted at the organisation's venue, tailored to internal workflows, tools, company datasets, and business KPIs.

Tailored Corporate Learning Solutions

Bespoke training programmes shaped around your industry sub-sector, workforce skill gaps, internal software tools, and 2027 operational priorities.

1

Role-based learning tracks

Programmes built for executives, managers, analysts, and operational staff.

2

Company-specific content

Your own datasets and case studies, tied to internal workflows, tools and KPIs.

3

Flexible scheduling

Delivery dates outside the open-enrolment batch windows, agreed with you.

Corporate Training Engagement Process

DataLeum
The Future Starts Here

1

Training Needs Assessment

Consultations with HR and business leaders, skill-gap diagnostics, and alignment with organisational KPIs.

2

Programme Recommendation and Customisation

Curriculum design, role mapping, bespoke case studies/datasets, and final schedule confirmation.

3

Training Delivery

Expert-led facilitation combining practical labs, simulations, and applied workplace projects.

4

Assessment and Evaluation

Pre and post-training assessments, practical project evaluation, and participant feedback analysis.

5

Learning Impact Reporting

Executive close-out report detailing skill gains, attendance, certification outcomes, and adoption next steps.
